Carol Anderson  
Randy Golay

1. Southwest School Park

It was stated that Randy had been given the draft lease about a week ago. Randy was comfortable with the lease terms and liked the idea of the property being used for a practice field. There was a discussion about putting a gate on the south end and putting up an orange snow fence. Randy wasn't sure about the orange snow fence. He would like to design something other than having the snow fence. Randy and his wife Nora would like to see the signs and give approval before the signs are made up and placed on the property. Randy said he would take care of all the maintenance of the property. He would spray, weed eat, water and mow.

There was a discussion of having a grand opening with a ribbon cutting. Randy stated that the church has used the property many times and the property has already been used by the public. He said he was fine with the agreement and the ribbon cutting ceremony.

Meeting adjourned 9:16 AM.
