1. Discussion of Applicants for City Council Vacancy

It was noted that six people had stated that they were interested in the vacancy for the city council. The mayor briefly shared information about each person and then stated that he would be moving forward with three of the people. The mayor stated that he would interview the three and then would decide and then make the appointment at the December 6th council meeting.

It was discussed that once the appointment has been voted by the council that the new person would hold the office for one year, they would then run for the position. Next year four positions on the city council would be open, one of them would be for a two-year term. This position would be the two-year term position, but the person could run for a four-year term if they prefer. Another council person could also run for the two-year term position.

It was stated that it was exciting to have six qualified people looking to fill this vacancy.

Meeting adjourned at 12:33 PM.
